

May 31, 2005

Dear Judge Bozza,

Since graduating from Brush High School in 2004, I have joined The College of Wooster's class of 2008. Recently, I declared my major in History and I am considering a minor in either Political Science or Art History. I began writing for the college newspaper, The Wooster Voice, and I was named Viewpoints editor for the 2005-2006 academic year.

After I graduate from Wooster, I plan on attending law school. My career aspirations include practicing law and, ultimately, becoming a judge. This dream was fueled by my senior project at the Lyndhurst Municipal Court.

Having such an amazing and intellectually stimulating senior project was, by far, one of the best decisions I made in high school. Before my senior project, I was uncertain of my career plans. Because of my time in the courthouse, I entered college with a lucid plan to achieve my goals. This experience put me on the right path to realize my ambition of becoming an attorney and, hopefully, a judge.

In my courses which deal with legal studies, I have the knowledge that comes from more than readings, projects and tests. I have experienced, while only for four weeks, the legal processes which take place in the courtroom. I am able to apply that knowledge of our justice system to my academic career which I believe has given me an advantage over my peers. I am thankful for my experience at the Lyndhurst Municipal Court because it gave me the desire to work diligently to become a thoughtful, intelligent, and accomplished lawyer.

Thank you for your truly wonderful influence on my life.

Sincerely,

Katie
